

Today, our speaker is

Every organisation is navigating uncertainty right now. Markets are shifting. Teams are exhausted. The old playbooks no longer work. And yet, the pressure to deliver, transform, and lead has never been greater.

He is here to tell us:

Without a safety net and no guarantees, we can, through perseverance, adaptability, and a never-give-up attitude, and with a fixed destination in our minds, tackle any headwind that comes our way.

He is special because:

While most people avoid uncertainty, he chose to confront it head-on. Sailing across some of the world's most unforgiving oceans aboard his yacht, Destiny 12, and one of an elite group of Asians who did this entirely on his own, he is here to show us how to navigate this.

Please welcome:

Fabian Fernandez, bringing us Leadership Beyond the Safe Harbour.
